DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 17, filed 2 March 2009, with respect to claims 2-8 have been fully considered and were persuasive therefore the 112 rejections of claims 2-8 has been withdrawn.
2. Applicant's arguments filed 2 March 2009 regarding claims 1-2, 4-7 rejected under 35 USC§102(b) have been fully considered and were persuasive. The rejection has been withdrawn.

Status of Claims

3. Claims 1-2, 4-7 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 9-13, directed to the process of making or using the allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104. Claims 14-45, directed to the invention(s) of do not all require all the limitations of an allowable product claim, and are NOT been rejoined.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, **the restriction requirement between groups I-III as set forth in the Office action mailed on 11 March 2005 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory

double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. The following rejection is deemed proper in view of the rejoinder of claims 9-13 with originally examined claims 1-8.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 9-13 rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for treating the listed ailments when the ratio range of omega-6/omega-3 is 0.73 – 0.61, does not reasonably provide enablement for a ratio range of 0.25:1 to 3:0. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims.

As shown in Table 6 (Fatty Acid Content and Ratios) there is not enablement for the lipid system used to treat said ailments. Therefore, claims 10-13 are not enabled when practiced with the lipids system of claim 1.

Allowable Subject Matter

6. Claims 1-2, 4-8 are allowed.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DEBORAH D. CARR whose telephone number is (571)272-0637. The examiner can normally be reached on Monday-Friday 8:30-5:00.
